Seattle City Council

Councilmember David J. Della

**Statement on Seattle Public Schools' newly named Advisory
Committee on Investing for Educational Excellence**

"This is a great step forward. Just as Seattle City Light utilized a citizen's advisory team in difficult times, the school district has chosen to do so too. Given the caliber of the members selected, I fully expect this committee to use their knowledge and passion for education toward all of our children's futures. We're eager to see new possibilities."
